

WELLNESS

A fully integrated health and wellness program with actionable results.

Benezon Wellness offers a comprehensive health and wellness approach designed to effectively engage members, administer client level incentives and deliver improved outcomes. Our solution includes state-of-the-art tools and programs that are recognized as leaders within the industry, featuring a truly unique combination that is sure to deliver on all your health and wellness programming needs.

Member Engagement

Focuses on user experience to accelerate and sustain behavior change

Personal Health Manager

Focuses on engaging members with actionable, personalized insights

Wellness Incentives

Focuses on member motivation strategies to reinforce healthy behavior

It's Personal

Uniquely configured solutions that address specific participant needs.

It's Safe

Data access, storage and transmission designed to stringent HIPAA/HITEC compliance.

It's Trusted

Developed and managed by board-certified physicians, NCQA certified.

It's Fun

Exciting and engaging programs to track progress and manage incentives. We provide effective engagement with members in their health & wellness—sparking wellness interests and participation, engaging members with their healthcare needs, motivating sustainable strategies, and provide clinics and coaches with proactive outreach to the members they serve.

Deliver incentive programs for compliance

Provide engaging programs that energize members to participate and complete, improving their healthy habits and outcomes over time. Programs can be tailored to specific client goals and objectives.

Expand outreach opportunities to close gaps in care

Allow clinicians and coaches to effectively engage with members using better insight of their gaps in care, disease management, lifestyle management and preventive care requirements.

Care Management

Focuses on proactive clinician and coaching outreach programs
